*"We are rooted to the air through our lungs and to the soil through our stomachs. We are walking trees and floating plants.*

*John Burroughs,  
The Grist of the Gods, 1908*

### Look for the Program Book Coming Soon

We have received several requests for the activity program for 2007. The wait is almost over. We are finalizing our faculty and assembling the massive puzzle required to make the program. Trying to balance the agenda with outdoor activities and stimulating learning sessions is a daunting task. Our faculty is pulling together a program that is action packed where you'll be left to ponder long and hard about which programs to select.

### Planning for 2008

Though the 2007 summit is still four months away, we are bringing together preparatory plans for the 2008 Family Nature Summit. We are considering several facilities West of the Mississippi. The knowledge and experience, we have gained while rushing to identify a location for the 2007 summit should make site selection and management a less overwhelming task. During the 2007 summit we will have the opportunity to pre-register for 2008.

### Family Nature Summit Description

We are working to draft a short statement of about 100 words that can capture the essence of the Summit. Here is your chance to express what the Family Summits mean to you. We are giving our members the opportunity to put their creativity to the test and design our "elevator speech" to brand Family Summits. Please reply to this message with your thoughts about a good branding statement.
