

Family Nature Summit

Early Discovery Preschool Program

Dear Parents and Summiteers,

I will be exploring with the preschoolers in the Early Discovery Program. This program will be filled with many adventures and activities while we explore our natural world at the summit. The week will include crafts, songs, books, and outside curiosity walks. This week the children will be learning about Seeds, Worms, Rocks, Sand, and Insects. If you have any books with the themes listed above, or any books with a nature theme please bring them to share. Some of you are returning summiteers, and for others, this is your first summit. I am looking forward to seeing all of you.

If you have any concerns or questions sherrard@netscape.com or (603) 444-2289

The preschool program runs from 8AM-12PM. If you need childcare for lunch or the afternoon, please sign your child up for these hours. (Lunch 12PM-1PM) (Afternoon childcare 1PM-5PM).

I am looking forward to an exciting week.

Thank you,

Sally Sherrard
